

TECHNICAL DATA SHEET

FAIRINGS RENEWER

- **PRODUCT DESCRIPTION**

Paste for manually polishing dull headlights and other glossy hard plastic surfaces.

- **FIELDS OF USE**

Thanks to the special formulation, it enables surface dullness to be delicately removed from car and motorcycle headlights. The product can also be used for shining scooter windshields or motorcycle fairings when these surfaces become dull.

- **TECHNICAL SPECIFICATIONS**

- | | |
|--------------|-----------|
| • Appearance | Paste |
| • Color | White |
| • Odor | Typical |
| • Density | 1.32 g/ml |

The above data do not constitute specifications and are subject to normal manufacturing tolerances

- **METHOD OF USE**

Remove all soil and dirt residues with a soft cloth, moistened as necessary. Recommended: "Wizzy Magic Cloth for Interiors" by Arexons, in microfiber.

Squeeze out a little portion of product on a cotton wad or a sponge and rub in a circular manner for a significant period of time until the surface becomes smoother.

Remove product residues with a new wad. Wipe with a moist, microfiber cloth, where necessary, to remove the last traces of grease.

If necessary, repeat the treatment on the most affected areas.

The product can also be used with felt or sponge polishing pads for drills. After the mechanical treatment, always carry out the final polishing by hand.

- **WARNINGS**

Do not apply on rubber parts.

Do not use in the sun or on overheated plastic.

- **STORAGE**

Unopened and stored at room temperature away from direct sunlight, for at least 3 years.

- **PACKAGING**

COEX tube 150 g
