

EXPERIENCE TO PERFORM

TECHNICAL DATA SHEET

DE ICE SPRAY

- **PRODUCT DESCRIPTION**

Specific product that quickly melts and eliminates ice from the windshield and car windows, whilst cleaning them and thus ensuring perfect visibility.

Keeps rubber seals flexible even in very low temperatures.

Also suitable for unlocking doors and locks.

If applied preventively, it prevents the formation of ice.

- **FIELDS OF USE**

During the winter, to quickly eliminate or prevent the formation of ice on the car windshield.

- **TECHNICAL SPECIFICATIONS**

• Appearance	Liq. Clear.
• Colour	Colourless
• Odour	Alcoholic
• Base Specific weight at 20°C (g/mL)	0.81
• Refractive Index	1,380
• Flash Point °C	12
• Propellant	CO ₂

- **DOSAGE**

As needed.

- **STORAGE**

In unopened package and stored at room temperature away from direct light at least 2 years

- **PACK**

Aerosol can

Contents: 300 ml

Code 8468

- **NOTES**

It is recommended to consult the safety data sheet for information on product safety.

- **DIRECTIONS FOR USE**

Spray on the frozen windshield from a distance of 20-30 cm; the ice layer will immediately melt.

In case of more persistent ice, spray the product abundantly and let it act for a few moments until the ice becomes soft and transparent. Start the wiper blades.
