

EXPERIENCE TO PERFORM

TECHNICAL DATA SHEET

WIZZY RUBBER, PLASTIC AND SEALS RESTORER

- **PRODUCT DESCRIPTION**

Impregnated cloths for restoring, nourishing and polishing all rubber and plastic parts of car exteriors. Particularly recommended for darkening tires and maintaining their elasticity. Silicone based.

- **FIELDS OF USE**

Tires (not tread). Door, window, roof and duct seals. Unpainted plastic parts such as moldings and bumpers. As a pre-soaked cloth, it does not disperse silicone particles in the air, greatly reducing the chances of accidental contamination. For this reason, it can be used near painted areas. Take care not to contaminate the painted area with hands, gloves or other parts that come into contact with the product.

- **TECHNICAL SPECIFICATIONS**

- Appearance Impregnated cloth
- Color White with blue polka dots
- Odor Typical
- Wipes / packet 12
- Wipe dimensions 200x295
- Folding Z-folded
- Substrate Spunlace 50g/m² polka dot abrasive

The above data do not constitute specifications and are subject to normal manufacturing tolerances

- **METHOD OF USE**

Lift the label and take out a pre-cut wipe. Using the polka dot part, wipe the tire shoulder until it is completely soaked. Leave to dry. Apply on clean parts. The white side of the cloth can later be used on seals and plastics until the impregnating liquid has run out.

- **DOSAGE**

For tires: 1 cloth for each tire. For seals and plastics, use as required.

- **STORAGE**

Unopened and stored at room temperature away from direct sunlight, at least 3 years.

- **PACKAGING**

PE-Al-PET flow pack
Contents: 12 soaked cloths

Product code: 1911

Languages on label I/EN/D/F/E/RU/RO/PL

- **NOTES**

For information on product safety, please consult the safety sheet.
