TECHNICAL DATA SHEET

6 IN 1

Multipurpose product

- PRODUCT DESCRIPTION

AREXONS 6IN1 is a multipurpose spray designed to solve problems and emergency situations instantly and simultaneously in the home, garden, car, bike, boat, and during sports, do-it-yourself activities but also for industrial maintenance and for artisans.

The product is formulated with special lubricating substances and emollients dispersed in a mixture of suitable solvents that give it the following **6 functions**:

1. Protection from oxidation
2. Elimination of moisture
3. Detergenc
4. Restoration of electrical contacts
5. Lubricating action
6. Loosening

6IN1 deeply penetrates into the smallest and most inaccessible spaces and, over time, ensures perfect lubrication of the treated surfaces, reducing friction and eliminating squeaks.

The 360° valve enables all the product to be used, even with the can upside down.

The high power jet (7 bar) quickly displaces moisture; moreover, **6 in 1** is not washed away due to the low miscibility with water.

It does not contain silicone and does not leave sticky residues.

NSF registration number: 154179

Category code: H2

- TECHNICAL CHARACTERISTICS

• Appearance	liquid
• Color	yellow
• Odor	talc
• Density 15°C ASTM D1298	0.810 g/ml
• Type of propellant	CO ₂
• Type of propellant 50 ml can	LPG

The reported data are subject to normal manufacturing tolerances

- METHOD OF USE

Spray the product on the parts to be treated, leave to act for a few minutes then, in the case of rusty couplings, carry out the loosening, repeating where necessary in case of encrustation.

- SHELF LIFE

At least 3 years if stored in the following conditions: in the original unopened packaging, away from direct sunlight, indoors, temperature range between 5°C and 35°C.

- PACKAGING

Spray can

50 ml
